

Users can access via a web browser on any device with internet access, **rather than a program installed on a computer.**

## EASE OF ACCESS TO YOUR BUSINESS DATA

### REDUCED SOFTWARE MAINTENANCE COSTS

**Promena e-sourcing + e-auction** is a Web-based software who makes it easy to access your business data from any device. That's because there's no need to install new programs to access the application. All you need is an internet connection and a web browser.

Promena application has SSL certificate which provides privacy and critical security. Database servers are located in Microsoft Azure - Germany and backed up in Netherlands.

Data stored virtually in a central location is easier to back up. That means web-based software can significantly reduce your risk of business information loss.

### e-AUCTION + e-PROCUREMENT MANAGEMENT

Manage forward/reverse auctions with live competition options, formulated and weighted in 5 different global formats; English, Dutch, Japanese, Brazilian and Yankee.

You can **convert your RFQ events to e-auctions** by easily copying the prices and the information. By managing the auctions with live competition settings and weighting, you can make sure you get the best possible price.

**8%**

Average savings rate  
per e-auction

**85man  
hour**

Savings per ane-auction  
compared to manual process.

**40%**

Percentage of **reduced  
cycle time** compared to  
paper-based workflows.
